The *Young Driver Programme NZ* is suitable for teenagers aged from 14 upwards. Courses are currently conducted monthly at our purpose built training facility, based at Ardmore Airport, Papakura. The *Young Driver Programme NZ* consists of 8 (eight) monthly training sessions, each session being 2 hours in duration. The Road and Traffic Education Centre is available for training at other times.

Parental involvement and participation in the *Young Driver Programme NZ* is essential. Students (and one nominated parent / guardian) will be required to obtain the current edition of the NZ Road Code, prior to course commencement. All other programme training materials are supplied.

Our professional driving instructors will expose students to driving, in both manual and automatic transmission cars, in a safe and controlled environment.

NZQA unit standards (pertaining to the National Certificate in Light Motor Vehicle driving) are integrated into the *Young Driver Programme NZ* and can be assessed and registered (POA).

Investment:

Young Driver Programme NZ

Each 2 hour session currently	\$70.00 inc GST
Assessment and registration of NZQA unit standards National Certificate in Light Motor Vehicle driving (conditions apply)	P.O.A

In order to secure a booking, payment in advance is required. Please feel free to contact us for additional information or to make a booking. We look forward to working with you.
